<i>Centaurea nigra</i>	Knapweed	F
<i>Cirsium arvense</i>	Creeping Thistle	F
<i>Dactylis glomerata</i>	Cock's-foot	F
<i>Epilobium hirsutum</i>	Gre rn	F 75

### Target Note WARRHALLT003

A large waterbody created for boating with a small island containing trees in the centre. The waterbody is surrounded by woodland on all sides, which includes some ornamental species. although there is still open water in the centre of the waterbody due to it's size. There was no visible emergent or submergent vegetation visible at the time of survey.

A pair of canada geese with 6 goslings and mallards were observed during the survey.

Two non-native invasive species were recorded around the waterbody: Japanese knotweed and Rhododendron.
